What's a fantastic game hundreds of hours with a bag of chips under my bed as a kid playing until my father proclaimed BLASTERBALL IS A VIRUS and my favorite game was lost into the dust just like Skiifree.

In Softonic we scan all the files hosted on our platform to assess and avoid any potential harm for your device. Our team performs checks each time a new file is uploaded and periodically reviews files to confirm or update their status. This comprehensive process allows us to set a status for any downloadable file as follows:

It's extremely likely that this software program is clean.

What does this mean?

We have scanned the file and URLs associated with this software program in more than 50 of the world's leading antivirus services; no possible threat has been detected.

This software program is potentially malicious or may contain unwanted bundled software.

Why is the software program still available?

Based on our scan system, we have determined that these flags are possibly false positives .

What is a false positive?

It means a benign program is wrongfully flagged as malicious due to an overly broad detection signature or algorithm used in an antivirus program.

It's highly probable this software program is malicious or contains unwanted bundled software.

Why is this software program no longer available in our Catalog?

Based on our scan system, we have determined that these flags are likely to be real positives.

We'd like to highlight that from time to time, we may miss a potentially malicious software program. To continue promising you a malware-free catalog of programs and apps, our team has integrated a Report Software feature in every catalog page that loops your feedback back to us.

Flag any particular issues you may encounter and Softonic will address those concerns as soon as possible.

Blasterball 2: Revolution.

Blasterball 2 Revolution has similar gameplay to its prequel; the player has to control a paddle and aim to hit the ball against the bricks above it. The player completes the stage when all the bricks are destroyed (or when entering a Secret Stage). The game can be played with a mouse, or a keyboard.

Sprites of the different paddles obtained through powerups.

Every 20 levels, the players will face a "boss" which is known as Guardian. These are more difficult than normal levels and the player must defeat them to advance.

The first Guardian stage, a pink centipede-like creature.

Powerups.

For the Powerups, please go to the Powerups article as it's for all the games instead of just one, and is more convenient this way:
